LIST OF CONTENTS

Number 1

J.L. Adler	1	Investigating the learning effects of route guidance and traffic advisories on route choice behavior
R. Rajamani and **S.E. Shladover**	15	An experimental comparative study of autonomous and co-operative vehicle-follower control systems
G. Marsden, M. McDonald and **M. Brackstone**	33	Towards an understanding of adaptive cruise control
M.G.S. de Oliveira and **P.C.M. Ribeiro**	53	Production and analysis of coordination plans using a geographic information system
R.G. Thompson, K. Takada and **S. Kobayakawa**	69	Optimisation of parking guidance and information systems display configurations

Number 2

T.F. Golob and **A.C. Regan**	87	Impacts of information technology on personal travel and commercial vehicle operations: research challenges and opportunities
K.W. Ogden	123	Privacy issues in electronic toll collection
P.G. Gipps, K.Q. Gu, A. Held and **G. Barnett**	135	New technologies for transport route selection

Number 3

S.A. Shaheen and **D.A. Niemeier**	155	Integrating vehicle design and human factors: minimizing elderly driving constraints
W.T. Chan, T.F. Fwa and **Kh. Zahidul Hoque**	175	Constraint handling methods in pavement maintenance programming
A. Várhelyi and **T. Mäkinen**	191	The effects of in-car speed limiters: field studies
L. Montero, E. Codina, J. Barceló and **P. Barceló**	213	A combined methodology for transportation planning assessment. Application to a case study

Number 4

C. Harlow and **S. Peng**	231	Automatic vehicle classification system with range sensors
E. Cascetta and **A. Papola**	249	Random utility models with implicit availability/perception of choice alternatives for the simulation of travel demand
M.A. Abdel-Aty	265	Using ordered probit modeling to study the effect of ATIS on transit ridership

M. van der Voort, M.S. Dougherty and M. van Maarseveen — 279 — A prototype fuel-efficiency support tool

Number 5

K. Nesbitt and D. Sperling — 297 — Fleet purchase behavior: decision processes and implications for new vehicle technologies and fuels

H. Chen and S. Grant-Muller — 319 — Use of sequential learning for short-term traffic flow forecasting

H.M. Zhang, S.G. Ritchie and R. Jayakrishnan — 337 — Coordinated traffic-responsive ramp control via nonlinear state feedback

A.W. Sadek, B.L. Smith and M.J. Demetsky — 353 — A prototype case-based reasoning system for real-time freeway traffic routing

Number 6

D. Bhattacharjee, K.C. Sinha and J.V. Krogmeier — 381 — Modeling the effects of traveler information on freeway origin–destination demand prediction

M. Eriksson and N.P. Papanikolopoulos — 399 — Driver fatigue: A vision-based approach to automatic diagnosis

P. Mirchandani and L. Head — 415 — A real-time traffic signal control system: architecture, algorithms, and analysis

F. Logi and S.G. Ritchie — 433 — Development and evaluation of a knowledge-based system for traffic congestion management and control
